

INFRASTRUCTURE DYNAMICS

SUSTAINABLE UTILITIES FOR A BETTER TOMORROW

EveraFLO Wastewater Pump Station

**Advanced wastewater
pumping solutions
delivering unmatched
durability, efficiency, and
total lifecycle value for
Municipalities, Public
Works Departments, &
Sanitary Sewer Utilities!**

Engineered to Outperform.....Manufactured to Outlast

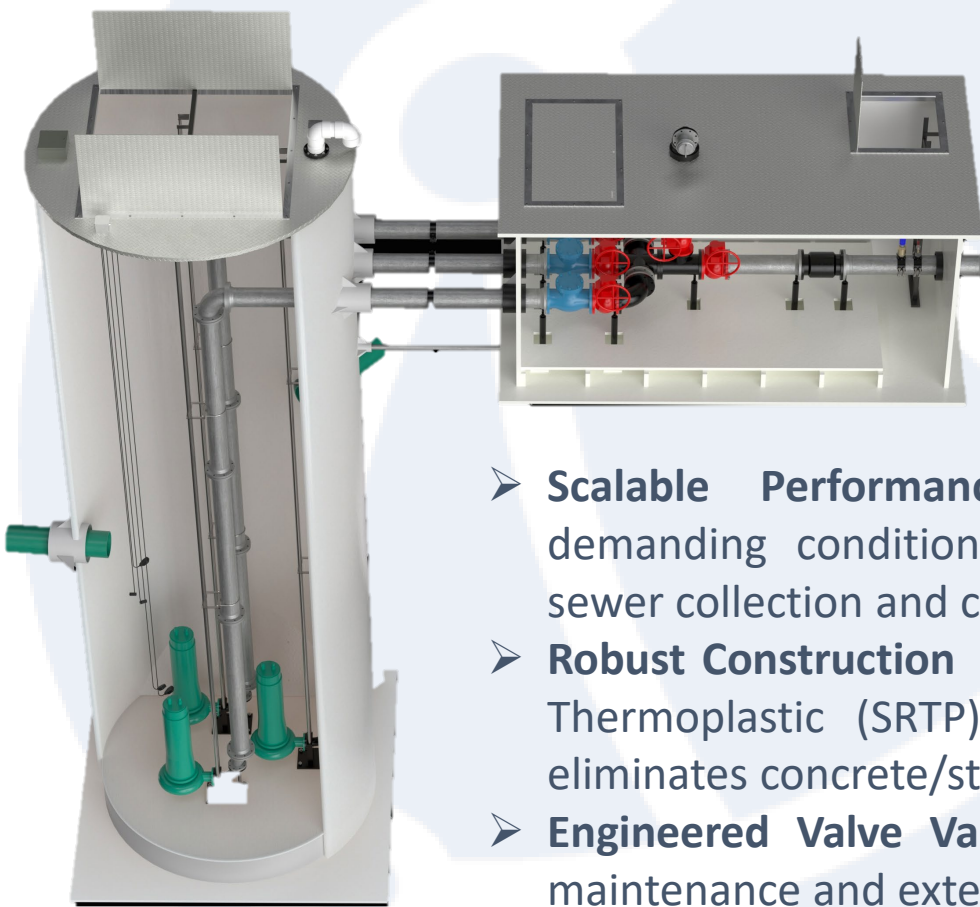

INFRASTRUCTURE DYNAMICS

SUSTAINABLE UTILITIES FOR A BETTER TOMORROW

EveraFLO Wastewater Pump Station

Capability You Can Count On

100-year Structural Life Cycle!!

- **Scalable Performance** Designed for demanding conditions common to sanitary sewer collection and conveyance utilities
- **Robust Construction** Structurally Reinforced Thermoplastic (SRTP) resists corrosion and eliminates concrete/steel degradation
- **Engineered Valve Vault** integrated for easy maintenance and extended service life

EVF 84-15 Pump Station Facility in Greenfield, PA

EVF 132-35 package delivery to Crooksville, OH

INFRASTRUCTURE DYNAMICS

SUSTAINABLE UTILITIES FOR A BETTER TOMORROW

More Features. Less Maintenance. Lower Cost.

- **Pump Technology Options:** grinders, choppers, solids handling.
- **SCADA-Ready** for real-time data and alerts with remote control function
- **Ancillary Equipment:** pump hoists, flow meters, electrical equipment buildings
- **Backup Generator Integration** ensures operation during outages
- **Factory-Built & Tested** allows quick installation with minimal disruption

“EveraFLO unites every engineering discipline with real-world utility insight—eliminating overlooked risks and delivering a lift station built to perform for decades.”

EveraFLO

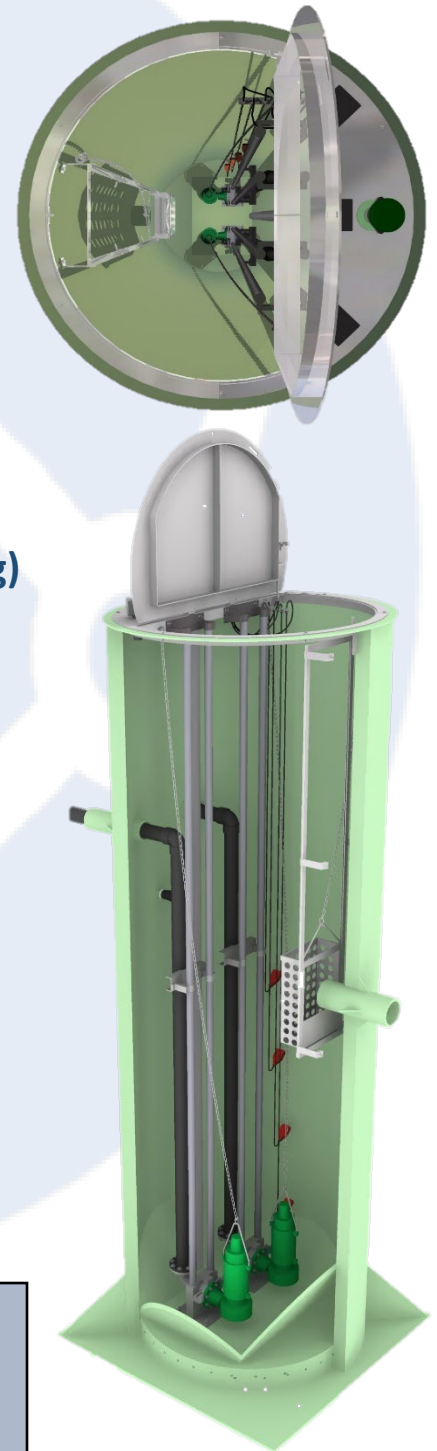

EveraFLO Wastewater Pump Station

The Smarter Investment for Your Sewer Utility

EveraFLO Features & Benefits

- Single Point of Supply for Fast Delivery and Lowest Cost!
- Sizes from 48" – 156" Diameter, depths from 5' to 50'
- Equipment Packages Typically include:
 - Structural Plastic Wetwell
 - Choice of Pumps (Grinder / Chopper / Solids Handling)
 - Choice of Piping Materials
 - Control Systems NEMA 4X w/PLC & HMI
 - Valve & Meter Vault Packages
 - Trash Baskets or Sewer Grinder Packages
 - Pump Hoists and Crane Systems
 - Generator Systems with Auto-Transfer Switch Gear
- Standardized Designs with numerous Upgrade Options
- Complete Engineered System includes detailed CAD Drawings, Specifications, Installation Guide, and O&M Manuals
